

ELIZABETH MATALLANA

Healthcare Data Analyst

• Buckeye, AZ • (808) 429-6419 • emat152@outlook.com • [LinkedIn Profile](#)

PROFESSIONAL PROFILE

Detail-oriented healthcare and military professional with proven skills in data management, transitioning to data analytics. Hands-on expertise in electronic health records (EHR), data validation, operational datasets, and workflow optimization equips me to deliver accurate insights in clinical and technical settings. Proficient in Excel for data analysis and visualization, with strong transferable abilities in accuracy, process improvement, and cross-functional collaboration. Currently pursuing a Master's in Data Analytics (starting March 2026) to master advanced tools including SQL, Python, and statistical modeling, enabling deeper contributions to data-driven decision-making in dynamic analytics environments.

KEY SKILLS

- **Data Validation & Integrity:** Ensured accuracy in high-stakes environments, including HIPAA-compliant patient data and mission-critical systems
- **Analytical Tools:** Microsoft Excel (filters, sorting, pivot tables, basic data analysis); Familiar with EMR/EHR systems (e.g., Gaia Chairside)
- **Technical Proficiency:** IT troubleshooting, ticketing systems, SQL basics (self-study), data entry & scheduling
- **Soft Skills:** Interdisciplinary team communication, problem-solving in time-sensitive settings, attention to detail & regulatory compliance
- **Domain Knowledge:** Clinical workflows, medical terminology, quality assurance, process improvement

EDUCATION

Western Governors University Phoenix, AZ	Mar 2026 - Sep 2026
<i>Master's Degree in Data Analytics (Data Science Focus) – In Progress</i>	
Relevant Coursework: Data science foundations, statistical analysis, predictive modeling	
Oregon State University Corvallis, OR	Sep 2020 - Jul 2024
<i>Bachelor of Science in Kinesiology</i>	

PROFESSIONAL EXPERIENCE

Fresenius Medical Care Goodyear, AZ	May 2024 - Oct 2025
<i>Dialysis Technician</i>	
• Analyzed and validated real-time patient vitals and treatment data in Gaia Chairside EMR, escalating abnormalities to reduce risks in a high-volume clinic serving 50+ patients daily • Optimized clinical workflows by coordinating data documentation, improving operational efficiency and compliance with HIPAA standards • Monitored and reported on treatment responses, contributing to quality assurance and team decision-making	

Army National Guard Various Locations	Sep 2017 - Feb 2025
<i>Fire Control Specialist</i>	
• Entered, validated, and analyzed operational data in AFATDS digital systems under time-sensitive conditions, ensuring 99% accuracy to support mission-critical decisions • Identified and resolved data inconsistencies and system issues, reducing potential errors by an estimated 25% and enhancing communication reliability • Collaborated with teams to maintain data integrity, applying problem-solving skills in high-stakes environments	

BioHealth Honolulu, HI	Jan 2023 - Jan 2024
<i>Injury Prevention Specialist</i>	
• Performed biomechanical assessments and analyzed movement data in clinical software, generating reports to inform rehabilitation strategies and prevent injuries • Maintained organized, HIPAA-compliant patient records, reviewing outcome data to ensure continuity and accuracy across interdisciplinary teams • Visualized functional data trends to support evidence-based recommendations, improving patient outcomes	

University of Portland Portland, OR	Jan 2021 - Jul 2021
<i>IT Help Desk Support</i>	
• Resolved 100+ technical support requests monthly, documenting issues and resolutions in ticketing systems to track trends and improve documentation consistency • Analyzed recurring system errors (e.g., login and software issues), reducing resolution time through proactive troubleshooting • Supported users with technology adoption, enhancing data entry accuracy and operational efficiency	

CERTIFICATIONS

- CompTIA Security+ (Cybersecurity and data privacy focus)
- Certified EKG Technician (CET)
- NASM Certified Personal Trainer
- CPR/AED Certification

ADDITIONAL STRENGTHS

- Strong communicator across clinical, technical, and operational teams
- High accuracy and problem-solving in dynamic, high-stakes settings
- Adaptable and mission-focused, with a passion for leveraging data to improve healthcare outcomes
